

IMNIS CASE STUDY

THE PROBLEM: As the industry mentoring network in STEM, IMNIS was seeking a way to **further improve** its already well-renowned mentoring program.

THE SOLUTION: By implementing Mentorloop, IMNIS was able to create more **efficient onboarding and matching sequences** - while providing participants with a **platform for more effective mentoring communication**.

“Using Mentorloop has differentiated us from other mentoring programs.”

IMNIS - mentoring program coordinator

97% of mentees would recommend the program.

83% of mentees said their mentor helped them better understand the skills needed to be successful.

61% of participants said Mentorloop helped them keep track of their relationship.
